

**European Climate Pact
Ivona Malbasic, Ecorys
Climate, Energy and Environment
Sector Leader**

The European Climate Pact

Launched in 2020, the European Climate Pact is a movement of people united by the shared mission to build a more sustainable Europe and help the EU to become climate-neutral by 2050.

The **Pact's vision**: An empowered European Climate Pact community that drives systemic change starting at the local level.

The Pact brings people and organisations together, shares practical tools, and helps communities turn climate ideas into real action.

WHO IS WHO?

DG CLIMA

is the Directorate-General for Climate Action of the European Commission. It oversees the European Climate Pact.

The Secretariat

brings the Pact Community together and coordinates activities at EU level.

Local structures

are **Country Coordinators (CCs)** and **Public Relations (PR) Agencies** that help deliver the Pact's vision at the national level.

Pact Partners

are organisations committed to addressing climate change and contributing to a sustainable future.

Pact Ambassadors

are individual volunteers who inform, inspire and support climate policy and action in their communities.

Friends of the Pact

are individuals and organisations who share the Pact's mission and stay connected, without a formal role.

Pact Community

How do we implement the Pact?

- Through our **community** and Country Coordinators:
 - 27 Country Coordinators, supported by 27 PR agencies
 - Climate Pact Ambassadors
 - Climate Pact Partners
 - Friends of the Pact

- Robust communication and dissemination activities:
 - Connected with all activities implemented by the Secretariat
 - Providing support with events organisation
 - Enabling effective communication and outreach at EU and local levels

How do we implement the Pact?

Ecorys is leading the Secretariat of the European Climate Pact

➤ What do we do?

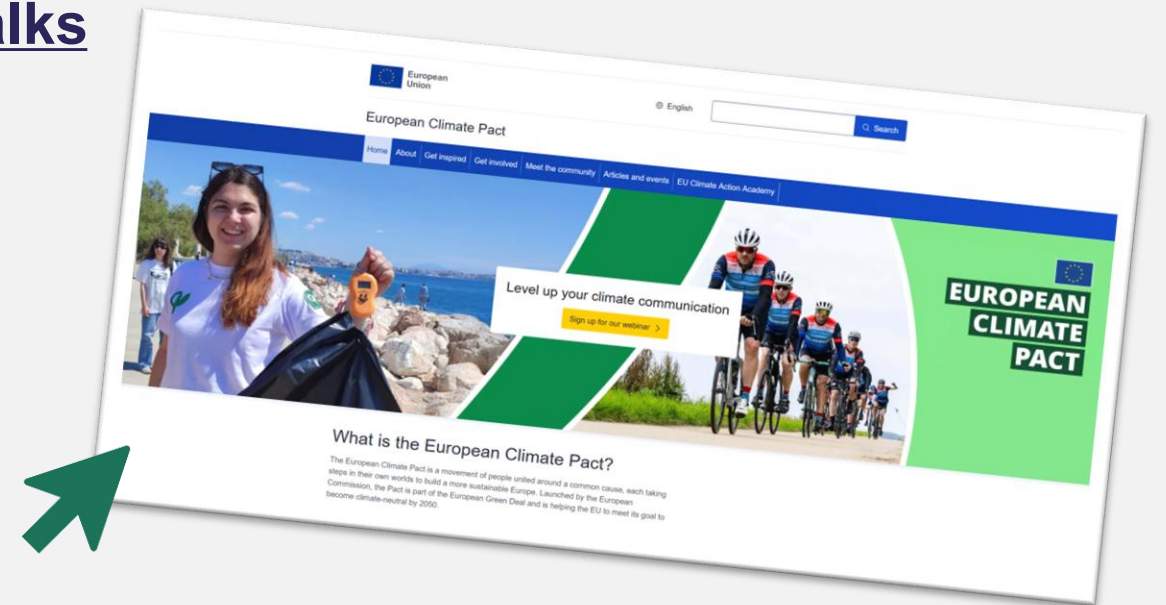

Together with our Consortium, we carry out seven tasks:

- Management of the Pact Secretariat, including organisation of events and outreach in Member States
- Management of Pact Ambassadors and Friends of the Pact (i.e. individuals who inform, inspire and support climate policy and action in their communities and networks)
- Encourage stakeholders' climate action commitments and actions – Pact Partners
- Promote and manage citizens' participation in climate action
- Outreach and communications
- Develop and manage the Pact Knowledge Hub, including the European Climate Action Academy
- Monitor and evaluate

How to get engaged

- Through country coordinators in your respective country
- Become a friend of the Pact
- Join activities and events organised in your country
- Check the Climate Pact Going Local Talks
- Check the EU Climate Action Academy

For a background of the Pact and its values, visit the European Climate Pact website.
